Use this section to:

- Insert your SEO-tags for your buyers to find your store on the Net.

Click "Save" after completing the settings.

5) **Additional**

Use this section to:

- Create additional text context
- Use CSS in order to structure the HTML page as you want it

Click "Save" after completing the settings.

App installation and removal

Please disable all similar applications before use.

Installation

Install the application from Shopify App Store by clicking "Add app". After completing these steps, our application is ready to work.

If *Snippet* or application code in *theme.liquid* were accidentally removed from the store theme, use Manual installation.

Integration

During installation app automatically integrate into the store theme without additional setting or coding. The same process will be applied when you change the theme. Intergration into a new theme will be made without any manual actions.

Removal

In order to remove the App from your store all you need to do is click "Apps" tab in your store Admin, find our App and click "Delete"

If all App code pieces also need to be deleted from your store theme you can use Manual removal.

Theme change

Store Theme change can stop application from working. Please complete the following actions before theme changing:

- 1. Open the application
- 2. Untick the "Activate coming soon page" checkbox
- 3. Click on the "Save" button

Change the Theme

- 1. Open the application
- 2. Tick back "Activate coming soon page"
- 3. Click the "Save" button again

This way your coming soon page will be added to your Store again.

Uninstallation

Before uninstallation you need to deactivate app. Please do the following:

- 1. Go to app settings page.
- 2. Untick the "Activate coming soon page" checkbox.
- 3. Save changes.

Uninstallation troubleshooting

If it doesn't work and you redirected to app's page, try to delete redirect code manually:

- 1. Go to the admin panel and click the "Online Store".
- 2. Click dropdown "Actions". Then press "Edit code".
- 3. Click "theme.liquid" in the left menu.
- 4. Delete code till "<!doctype html>".

if something went wrong, please, contact us. We are glad to help.

Exclude links to coming soon page from Google search results

After uninstalling the application, the link to the coming soon page of your store may remain in the results of Google search for some time. In order to exclude this irrelevant link from the search results, you can ask Google to update your links by following the steps in this instruction: Ask Google to recrawl your URLs

Setting up the app

Export users to Mailchimp

At the moment, the process of exporting your customers from Shopify to Mailchimp is rather cumbersome and difficult for the average user. To be user-friendly, we offer you our help. Please contact with us at support@kad.systems and we will help you to do it.
