Custom CSS

For manual customisation the application provides a CSS input field that allows you to accurately and flexibly customize the application components style.

Advanced	Custom CSS	
	.kad-preorderpreorder-badge {	
	width: 80px limportant;	
	height: 80px;	
	font-size: 12px limportant;	
	border-radius: 100%;	
	padding-top: 33px !important;	
	3	
	.Button-Preorder-Cart {	
	background-color: aquamarine;	
	3	
	.tippy-active {	
	color: red;	
	}	

List of application element selectors:

- .Button-Preorder-Cart pre-order button for adding products to the cart.
- . kad-preorder-preorder-badge badge added to the pre-order product image on the collection page.
- .tippy-active confirmation button for redirecting to checkout.
