

Mixed cart notification

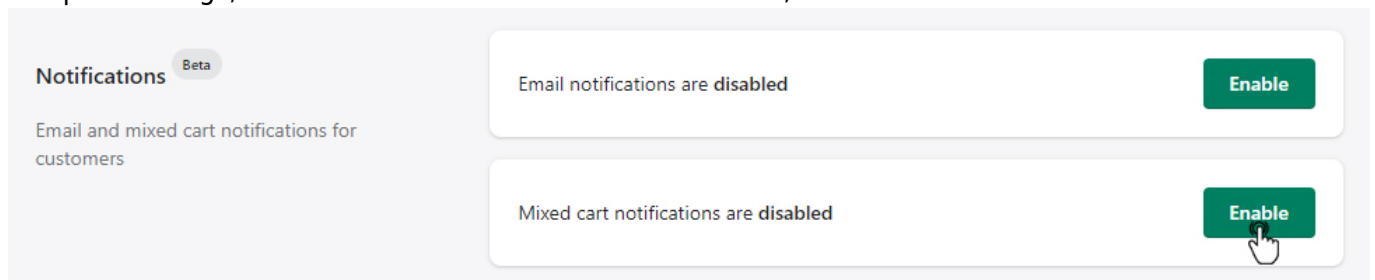

This is a **Beta** feature. We actively collect user feedback and refine the feature to make it better. In case of difficulties, please contact our support.

This feature allows you to additionally notify your customers that their order contains both in-stock and pre-order products, which may result in a longer delivery time for their order.

Feature will work in the themes with cart pages only. Pop-up carts are not supported.

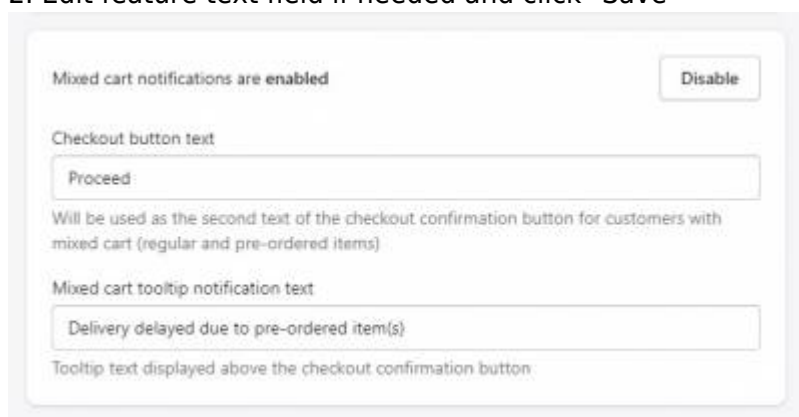

Enabling mixed cart notifications

1. Open Settings, scroll down to the section "Notifications", click "Enable" mix cart notifications

The screenshot shows the 'Notifications' settings page. On the left, there is a 'Beta' badge and the text 'Email and mixed cart notifications for customers'. On the right, there are two toggle switches. The first is for 'Email notifications' and the second is for 'Mixed cart notifications'. Both are currently disabled, and each has a green 'Enable' button to its right. A mouse cursor is pointing at the 'Enable' button for 'Mixed cart notifications'.

2. Edit feature text field if needed and click "Save"

The screenshot shows the configuration form for 'Mixed cart notifications'. At the top, it says 'Mixed cart notifications are enabled' with a 'Disable' button. Below that, there are two text input fields. The first is labeled 'Checkout button text' and contains the text 'Proceed'. Below this field is a note: 'Will be used as the second text of the checkout confirmation button for customers with mixed cart (regular and pre-ordered items)'. The second text input field is labeled 'Mixed cart tooltip notification text' and contains the text 'Delivery delayed due to pre-ordered item(s)'. Below this field is a note: 'Tooltip text displayed above the checkout confirmation button'.

Customers with mixed cart will be notified

When the feature is activated, users with a mixed cart will see a notification clip here and then have

Subtotal \$72.70 CAD
Taxes and shipping calculated at checkout

Subtotal \$72.70 CAD
Taxes and shipping calculated at checkout

Delivery delayed due to pre-ordered item(s)
